List of Tables

Table No 4.1.1    Distribution of Caregivers based on the Socio-demographic details……78

Table No 4.3.1    Distribution of Caregivers of people with HNC on the basis
                 of their Socio demographic variables and Burden....................................95

Table No 4.3.2    Distribution of Caregivers of people with HNC on the basis
                 of their Burden in relation to Care Recipient Characteristics…………………..96

Table No 4.4.1    Distribution of Caregivers of people with HNC on the basis
                 of their Socio demographic variables and Distress…………………………..98

Table No 4.4.2    Distribution of Caregivers of people with HNC on the basis
                 of their distress in relation to Care Recipient Characteristics………………….101

Table No 4.5.1    Level of Burden Experienced by the Caregivers of HNC
                 patients before and after Psycho educational Intervention Program……102

Table No 4.5.2    Cross tabulation of pre and post test for burden of caregivers
                 of people with HNC…………………………………………………………………104

Table No 4.6.1    Level of Distress Experienced by the Caregivers of HNC
                 patient’s before and after the Intervention Program……………………………..106

Table No 4.6.2    Percentage of Caregivers whose level of distress improved
                 or worsened after Psycho educational Intervention Program………………107

Table No 4.6.3    Percentage of improvement in the level of distress for each item………..109

Table No 4.7.1    Correlation between care giver burden and care giver distress
                 of head and neck cancer patients……………………………………………….110

Table No 4.8.1    Step wise Multiple Linear Regression Model Predicting Distress,
                 Burden and Needs of Caregivers of people with HNC………………….112
