ACKNOWLEDGMENTS

I wish to take this opportunity to remember and thank all of those who gave me a helping hand in accomplishing this mission. I am ever thankful to our Vice Chancellor Fr. Abraham V. M. for his continued encouragement and support and also to the Pro Vice Chancellor Fr. Jose C.C. for his constant encouragement. Thanks are also due to the Registrar Dr. Anil Joseph Pinto for his guidance and support.

I would like to place on record my gratitude to the entire team at the Centre for Research, Christ University; Dr. Uma for her encouragement and support, Additional Director Dr. Tony Sam George for his support and Associate Director Dr. Sebastian.

I would like to specially thank my guide Dr. Joseph I. Injodey, who is known not only for the institution that he is affiliated to, but also for his keenness as a guide and mentor. He displayed complete humility and understanding throughout the period of research by giving timely input and encouragement.

Thanks are due to Mr. Jayasimha of Sigma Tabs and Dr. Sudev P. B. and Prof. Veeva Mathew for the statistical contributions and to all my respondents and facilitators who were a part of my data collection.

I am personally obliged to my family for their personal sacrifices, moral support and constant encouragement that made this research journey possible.

I present this work to the Almighty with the utmost reverence and humility, without Whose grace this thesis would not have come to fruition.

Rajani Roshan John
